

# TFIN20

## Management Accounting (CO) I part I

**PARTICIPANT HANDBOOK  
INSTRUCTOR-LED TRAINING**

Course Version: 15  
Course Duration: 5 Day(s)  
Material Number: 50129678

# Contents

**xi Course Overview**

**1 Unit 1: Organizational Units**

2	Lesson: Outlining the Organizational Units of Management Accounting
13	Exercise 1: Check the Controlling Area Settings

**21 Unit 2: Master Data**

23	Lesson: Maintaining Cost Center Master Data
29	Exercise 2: Create Cost Centers
39	Lesson: Maintaining Cost Element Master Data
45	Exercise 3: Create Cost Elements
52	Lesson: Maintaining Activity Type Master Data
55	Exercise 4: Create Activity Type Master Data
61	Exercise 5: Define Prices
66	Lesson: Maintaining Statistical Key Figure Master Data
69	Exercise 6: Create Statistical Key Figure Master Data
74	Lesson: Using Global Functions for Master Data
77	Exercise 7: Create Time-Based Master Data
81	Exercise 8: Maintain Collective Processing
89	Exercise 9: Define Master Data Groups

**107 Unit 3: Event-Based Postings**

109	Lesson: Entering Primary Postings
115	Exercise 10: Post to Cost Centers from Financial Accounting
120	Lesson: Describing Reports in Cost Center Accounting
125	Exercise 11: Process Standard Reports
131	Exercise 12: Define User Settings for Standard Reports
135	Exercise 13: Analyze Reports with Variation
138	Lesson: Using the Account Assignment Tools
143	Lesson: Generating Manual Postings
147	Exercise 14: Generate Manual Postings
153	Lesson: Using Direct Activity Allocation
157	Exercise 15: Maintain Direct Activity Allocation

**173 Unit 4: Period-End Closing**

175	Lesson: Managing Accrual Costs
181	Exercise 16: Manage Accrual Costs
187	Lesson: Entering Statistical Key Figures
189	Exercise 17: Enter Statistical Key Figures
195	Lesson: Maintaining Periodic Reposting
201	Exercise 18: Maintain Periodic Reposting
210	Lesson: Processing Cost Allocations
217	Exercise 19: Maintain the Assessment Cycle
233	Exercise 20: Access the Cycle Overview
237	Exercise 21: Maintain the Allocation Structure
253	Exercise 22: Maintain Indirect Activity Allocation
259	Lesson: Using the Period Lock
261	Lesson: Describing New General Ledger Accounting

**275 Unit 5: Planning**

277	Lesson: Configuring Cost Center Planning
285	Exercise 23: Maintain a Planning Layout
291	Lesson: Performing the Planning Process
295	Exercise 24: Plan Statistical Key Figures
303	Exercise 25: Plan Activity Output and Prices
309	Exercise 26: Maintain Cost Element Planning
321	Exercise 27: Use the Automatic Planning Process
331	Lesson: Using the Planning Aids
333	Exercise 28: Copy Plan Data
337	Exercise 29: Use Revaluation

**353 Unit 6: Report Painter Reports in Cost Center Accounting**

354	Lesson: Executing Report Painter Reports
361	Lesson: Executing Report Painter Reports Using Extracts
363	Exercise 30: Execute Report Painter Reports Using Extracts

**371 Unit 7: Introduction of Internal Orders**

372	Lesson: Using Internal Orders
375	Lesson: Using Real and Statistical Orders
378	Lesson: Applying Different Business Scenarios for Internal Orders

**387 Unit 8: Master Data**

388	Lesson: Maintaining Master Data
391	Exercise 31: Create an Order Type
397	Exercise 32: Maintain the Master Data of Internal Orders
402	Lesson: Using Status Management for Overhead Cost Orders
407	Exercise 33: Use Status Management for Overhead Cost Orders
412	Lesson: Using Collective Processing
415	Exercise 34: Use Order Groups
421	Exercise 35: Use Collective Processing

**431 Unit 9: Event-Based Postings**

432	Lesson: Analyzing Event-Based Postings Within and Outside Management Accounting
437	Exercise 36: Create Postings in Management Accounting
445	Lesson: Working with Commitment Management
449	Exercise 37: Prepare Commitment Management

**461 Unit 10: Period-end Closing**

462	Lesson: Evaluating Periodic Debit Postings
467	Exercise 38: Use the Overhead Costing Sheet
476	Lesson: Periodic Credit Postings with Settlement
483	Exercise 39: Set Up Settlement Parameters and Rules
489	Exercise 40: Evaluate an Allocation Structure
493	Lesson: Analyzing Source Structures and Profitability Analysis Transfer Structures
497	Lesson: Using Special Features

**507 Unit 11: Planning and Budgeting**

508	Lesson: Analyzing the Planning Scope and Prerequisites
513	Exercise 41: Use Overall Value Planning
524	Lesson: Evaluating Budgeting and the Availability Control
527	Exercise 42: Budgeting
533	Exercise 43: Maintain Availability Control

**547 Unit 12: Order Summarization and Summarization Reports**

548	Lesson: Using the Order Summarization
551	Lesson: Using Summarization Reports

# TFIN20

## Management Accounting (CO) I part II

**PARTICIPANT HANDBOOK  
INSTRUCTOR-LED TRAINING**

Course Version: 15

Course Duration: 5 Day(s)

Material Number:

# Contents

ix **Course Overview**

**1 Unit 1: Product Cost Planning Methods**

3 Lesson: Explaining Product Cost Planning

11 Lesson: Selecting the Right Product Cost Planning Method

**21 Unit 2: Product Cost Planning Basics**

23 Lesson: Defining Costing Items

29 Lesson: Understanding Product Cost Planning Basics

**39 Unit 3: Reference and Simulation Costing**

40 Lesson: Creating Base Planning Objects

43 Exercise 1: Create a

47 Exercise 2: Modify a

52 Lesson: Working Efficiently with Base Planning Objects

59 Exercise 3: author='C5167756' time='20120421T112715+0000'  
data='Add a reference BPO'

69 Exercise 4: Process a Detailed Report for Base Planning Objects

**77 Unit 4: Material Cost Estimates**

79	Lesson: Integrating Material Master Records and Product Cost Planning
87	Lesson: Creating a Single-Level Cost Estimate Without Quantity Structures
89	Lesson: Creating a Multilevel Material Cost Estimate Without Quantity Structure
97	Exercise 5: Create a Multi
101	Lesson: Maintaining Multilevel Cost Estimates
109	Exercise 6: author='C5167756' time='20120423T091458+0000' data='Modify a multi-level cost estimate'
113	Lesson: Defining the Quantity Structure
131	Lesson: Determining the Quantity Structure
135	Exercise 7: Display a Cost Estimate
147	Lesson: Creating Material Cost Estimates with Quantity Structure
153	Exercise 8: Create a Material Cost Estimate with Quantity Structure
160	Lesson: Updating the Material Master
167	Exercise 9: Update the Standard Price in the Material Master
179	Lesson: Changing Prices in the Material Master

**199 Unit 5: Costing Run**

200	Lesson: Using Costing Runs in Product Cost Planning
207	Exercise 10: Process a Costing Run
214	Lesson: Analyzing the Results of a Costing Run
219	Exercise 11: Review the Results of a Costing Run

**235 Unit 6: Product Cost Planning Configuration**

237	Lesson: Explaining the Costing Variant
241	Lesson: Configuring the Costing Variant
247	Exercise 12: Display a Costing Variant
251	Lesson: Explaining the Cost Component Split
254	Lesson: Configuring the Cost Component Structure
257	Exercise 13: Display a Cost Component Structure
261	Lesson: Applying Overhead Costs to a Product
265	Exercise 14: Calculate Overhead
273	Lesson: Allocating Process Costs to a Product

**289 Unit 7: Case Study**

290	Lesson: Evaluating the Business Scenario
293	Exercise 15: Evaluate the Business Scenario
297	Lesson: Creating a Costing Variant
299	Exercise 16: Create a Costing Variant
305	Lesson: Creating a Costing Sheet
307	Exercise 17: Create a Costing Sheet
315	Lesson: Creating a Business Process Template
317	Exercise 18: Create a Business Process Template
321	Lesson: Creating a Cost Estimate
323	Exercise 19: Create a Cost Estimate

**329 Unit 8: Cost Object Controlling**

331	Lesson: Outline Cost Object Controlling
-----	---

**351 Unit 9: Product Cost Controlling by Period**

352	Lesson: Using a Product Cost Collector
359	Exercise 20: Create a Product Cost Collector
365	Lesson: Using a Production Order and Product Cost Collector
369	Exercise 21: Create Production Order
375	Lesson: Performing Preliminary Costing for Product Cost Collector
383	Exercise 22: Perform Preliminary Costing
388	Lesson: Performing Simultaneous Costing for Product Cost Collector
391	Exercise 23: Post
397	Exercise 24: Credit the Product Cost Collector by Posting a Goods Receipt

**409 Unit 10: Period-End Closing for Product Cost Controlling by Period**

411	Lesson: Outlining Period-End Closing for a Product Cost Collector
414	Lesson: Performing Template Allocation
417	Exercise 25: Perform Template Allocation
421	Lesson: Performing Revaluation at Actual Prices
424	Lesson: Performing Actual Overhead Calculation
427	Exercise 26: Perform Actual Overhead Calculation
431	Lesson: Calculating Work in Process (WIP) for Manufacturing Orders
433	Exercise 27: Calculate Work in Process for Process Orders
439	Exercise 28: Calculate Work in Process for Production Orders
443	Lesson: Performing Variance Calculation
453	Lesson: Performing Settlement

**463 Unit 11: Information System for Product Cost Controlling**

465 Lesson: Information System Product Cost Controlling

469 Lesson: Using Detailed Reports

473 Lesson: Using Object Lists

477 Exercise 29: author='C5169062'

time='20120621T134924+0000'

481 Lesson: Performing a Cost Object Summarization

# TFIN22

## Management Accounting II - Part 1

**PARTICIPANT HANDBOOK**  
**INSTRUCTOR-LED TRAINING**

Course Version: 15

Course Duration: 5 Day(s)

Material Number: 50129194

# Contents

**xi Course Overview**

**1 Unit 1: Sales-Order-Related Production Scenarios in Cost Object Controlling**

- 2 Lesson: Managing Sales Orders
- 7 Lesson: Controlling Scenarios in Make-to-Order (MTO)

**19 Unit 2: Make-to-Order (MTO) Production with Controlling by Sales Order**

- 20 Lesson: Using a Sales Order for Make-to-Order (MTO) Production
- 25 Exercise 1: Create a Sales Order for Make-to-Order Production
- 37 Exercise 2: Check the Individual Requirement Indicator
- 41 Lesson: Using Simultaneous Costing of Sales Orders for Make-to-Order (MTO) Production – Purchasing
- 47 Exercise 3: Purchase Material for Make-to-Order Production
- 54 Lesson: Using Simultaneous Costing of Sales Orders for Make-to-Order Production (MTO) – Production
- 61 Exercise 4: Produce and Deliver Material for Make-to-Order Production

**77 Unit 3: Configuration of Sales Orders for Make-to-Order (MTO) Production**

- 78 Lesson: Configuring Sales Orders for Make-to-Order (MTO) Production 1
- 82 Lesson: Configuring Sales Orders for Make-to-Order (MTO) Production 2

**93 Unit 4: Period-End Closing for Make-to-Order (MTO) Production**

- 95 Lesson: Calculating Overhead Costs for Sales Orders
- 101 Exercise 5: Calculate Overhead Costs for Sales Orders
- 104 Lesson: Calculating Work in Process (WIP) and Production Order Variances
- 109 Lesson: Carrying Out Results Analysis and Settling Sales Orders
- 114 Lesson: Performing Results Analysis for Sales Orders
- 127 Exercise 6: Perform Results Analysis for Sales Order
- 136 Lesson: Configuring Results Analysis
- 143 Lesson: Settling Sales Orders
- 155 Exercise 7: Settle the Sales Order

**165 Unit 5: Information System for Product Cost Controlling**

166	Lesson: Product Cost Controlling Information System (CO-PC)
170	Lesson: Using Detailed Reports
174	Lesson: Using Object Lists
179	Exercise 8: Analyze Sales Orders with "Sales Order Selection"
183	Lesson: Performing Cost Object Summarization

**193 Unit 6: Profitability Management**

194	Lesson: Outlining Profitability Management Options
199	Lesson: Comparing Profitability Analysis and Profit Center Accounting
205	Exercise 9: Execute Reports of CO-PA
212	Lesson: Analyzing Profitability Management Objects

**229 Unit 7: Structures**

230	Lesson: Introducing the Concept of an Operating Concern
239	Exercise 10: Evaluate the Basic Configuration of an Operating Concern
243	Lesson: Defining Data Structures
251	Exercise 11: Display Data Structures, Characteristics, and Value Fields
257	Exercise 12: Evaluate the Attributes, Characteristics, and Value Fields of an Operating Concern

**265 Unit 8: Master Data**

266	Lesson: Describing the Concepts of Characteristic Derivation and Valuation
270	Lesson: Defining a Derivation Strategy
279	Exercise 13: Evaluate the Derivation Configuration
285	Exercise 14: Create a Line Item That Uses Derivation
289	Lesson: Evaluating with Product Costing
297	Exercise 15: Evaluate the Configuration of a Valuation Strategy
303	Exercise 16: Create a Line Item That Uses the Valuation Strategy
309	Lesson: Evaluating with a Costing Sheet
315	Exercise 17: Evaluate the Configuration of a Valuation Strategy Using a Costing Sheet
319	Exercise 18: Create a Line Item That Uses the Valuation Strategy
325	Exercise 19: Analyze Configuration Using the Customizing Monitor

**333 Unit 9: Actual Data**

335	Lesson: Defining the Flow of Actual Data
339	Lesson: Analyzing the Integration with Sales Order Management
353	Exercise 20: Execute the Sales Order Cycle
363	Exercise 21: Analyze the Value Flow
367	Lesson: Processing Cost Allocations
373	Exercise 22: Create and Execute an Assessment Cycle
383	Exercise 23: Allocate Costs to CO-PA Using Activity Types
392	Lesson: Processing Internal Orders
397	Exercise 24: Settle Internal Orders to CO-PA
406	Lesson: Creating Direct Postings from FI
409	Exercise 25: Create a Direct Posting from FI to CO-PA
417	Exercise 26: Post a Revaluation of a Material and View the CO-PA Documents
422	Lesson: Evaluating Other Actual Postings in CO-PA

**441 Unit 10: Planning**

442	Lesson: Evaluating the Profit Planning Process
446	Lesson: Outlining Planning Methods
473	Exercise 27: Create Manual Planning Functions
483	Exercise 28: Perform a Top-Down Distribution
489	Exercise 29: Outline Integrated Planning

# TFIN22

## Management Accounting II - Part 2

**PARTICIPANT HANDBOOK  
INSTRUCTOR-LED TRAINING**

Course Version: 15

Course Duration: 5 Day(s)

Material Number: 50129194

# Contents

**xi Course Overview**

**1 Unit 1: Profitability Management**

2	Lesson: Outlining Profitability and Sales Accounting Options
9	Exercise 1: Display a Report from Profitability Analysis
15	Lesson: Outlining Global Settings for New General Ledger Accounting
33	Exercise 2: Check the Global Settings for New General Ledger Accounting

**39 Unit 2: Profit Center Master Data**

40	Lesson: Creating Profit Center Master Data
51	Exercise 3: Create Profit Center Master Data in the Standard Hierarchy and Profit Center Groups
57	Lesson: Assigning Profit Centers to Account Assignment Objects
67	Exercise 4: Analyze Profit Center Assignments

**77 Unit 3: Profit Center Accounting (PCA) Actual Postings**

79	Lesson: Explaining Profit Center Updates
84	Lesson: Integrating Profit Centers and Asset Accounting
89	Exercise 5: Post Asset Transactions to PCA
96	Lesson: Integrating Profit Centers and Materials Management (MM)
99	Exercise 6: Post a Material Movement to PCA
108	Lesson: Integrating Cost Object Controlling (COC) and PCA
111	Exercise 7: Settle a Production Order and Verify the Resulting Postings in PCA
121	Lesson: Integrating Sales and Distribution (SD) and PCA
123	Exercise 8: Process a Sales Order
131	Lesson: Processing Allocations in PCA
139	Exercise 9: Process a Profit Center Allocation

**151 Unit 4: Profit Center Reorganization**

152	Lesson: Reorganizing Profit Centers
162	Lesson: Executing Reorganization Plans

**193 Unit 5: Profit Center Planning**

- 194 Lesson: Preparing Planning Configuration
- 199 Exercise 10: Plan Profit Centers Manually
- 209 Lesson: Outlining Planning Integration
- 215 Exercise 11: Transfer Plan Data from CO-OM to FI

**225 Unit 6: Drilldown Reports**

- 226 Lesson: Executing Drilldown Reports Delivered in the Standard System
- 241 Exercise 12: Execute Standard Drilldown Reports

**255 Unit 7: Introduction to the Report Painter and Report Writer**

- 256 Lesson: Introducing the Report Painter and Report Writer
- 261 Lesson: Understanding the Report Writer Components
- 265 Exercise 13: Explain the Components of a Report
- 267 Exercise 14: Understand the Relationship Between the Report Components
- 273 Lesson: Configuring the Report Writer Components
- 275 Exercise 15: Create a Library

**285 Unit 8: Creating Reports Using Report Painter**

- 287 Lesson: Creating Basic Report Painter Reports
- 299 Exercise 16: Build a Report with a Total Row
- 306 Lesson: Using Report Groups
- 309 Exercise 17: Add a Report to a Report Group and Execute the Report
- 312 Lesson: Using Row Explosion
- 315 Exercise 18: Use the Explode Row Function in a Report
- 324 Lesson: Using Hierarchies in Reports
- 325 Exercise 19: Use Hierarchies: Sequence (Sort)
- 334 Lesson: Using Variables and Text in Report Painter Reports
- 339 Exercise 20: Use Variables in a Report Painter Report

**351 Unit 9: Row and Column Models**

- 352 Lesson: Using Row and Column Models
- 355 Exercise 21: Create Row and Column Models and Use them in a Report

**365 Unit 10: Selection and Horizontal Pages**

366	Lesson: Using Horizontal Pages
371	Exercise 22: Define Horizontal Pages Within a Report
376	Lesson: Working with Sections
379	Exercise 23: Create a Report with Independent Sections
386	Lesson: Using Cells in Formula Columns
389	Exercise 24: Add a Column Formula to a Report that Includes a Cell Reference
395	Lesson: Using Cells in Calculations
399	Exercise 25: Create a Report with a Calculated Key Figure Section

**413 Unit 11: Report Formatting**

414	Lesson: Formatting Reports Using Standard Layouts
417	Lesson: Formatting Sections
421	Exercise 26: Create a New Standard Layout and Attach it to a Report and Change Section Attributes
426	Lesson: Formatting Reports Using Format Groups
429	Exercise 27: Format Groups and Other Formatting Issues

**443 Unit 12: Information System**

444	Lesson: Executing CO-PA Reports (Financial Analytics)
453	Exercise 28: Use the Reporting Functionality
462	Lesson: Creating Basic Reports and Outlining Report Components
469	Exercise 29: Create a Basic Report
473	Exercise 30: Create Report Components
481	Lesson: Creating Form Reports
489	Exercise 31: Create Form Reports
506	Lesson: Creating Line Item and Account-Based Reports
511	Exercise 32: Create a Line Item and Account-Based Report
519	Lesson: Integrating SAP BW in CO-PA
