

TFIN20

Management Accounting (CO) I -
Part 1

Contents

xi Course Overview

1 Unit 1: Organizational Units

2	Lesson: Outlining the Components of Management Accounting
13	Exercise 1: Evaluate the Controlling Area Settings

21 Unit 2: Master Data

23	Lesson: Maintaining Cost Center Master Data
27	Exercise 2: Create Cost Centers and Display the Cost Center Standard Hierarchy
36	Lesson: Maintaining Cost Element Master Data
39	Exercise 3: Create Cost Element
46	Lesson: Maintaining Activity Type Master Data
49	Exercise 4: Create Activity Type Master Data
55	Exercise 5: Define Prices
60	Lesson: Maintaining Statistical Key Figure Master Data
63	Exercise 6: Create Statistical Key Figure Master Data
68	Lesson: Using Global Functions for Master Data
71	Exercise 7: Create Time-Based Master Data
75	Exercise 8: Maintain Collective Processing
83	Exercise 9: Define Master Data Groups

101 Unit 3: Event-Based Postings

103	Lesson: Entering Primary Postings
109	Exercise 10: Maintain Event-Based Postings
115	Lesson: Describing Reports in Cost Center Accounting
119	Exercise 11: Process Standard Reports
125	Exercise 12: Define User Settings for Standard Reports
129	Exercise 13: Use Variation
132	Lesson: Using the Account Assignment Tools
136	Lesson: Preparing Adjustment Postings
139	Exercise 14: Generate Manual Postings
145	Lesson: Using Direct Activity Allocation
149	Exercise 15: Maintain Direct Activity Allocation

167	Unit 4:	Period-End Closing
169		Lesson: Evaluating the Accrual Calculation
175		Exercise 16: Use the Accrual Calculation
181		Lesson: Entering Statistical Key Figures
183		Exercise 17: Enter Statistical Key Figures
189		Lesson: Maintaining Periodic Reposting
193		Exercise 18: Maintain Periodic Reposting
202		Lesson: Processing Cost Allocations
205		Exercise 19: Explain the Distribution Cycle
211		Exercise 20: Maintain the Assessment Cycle
227		Exercise 21: Navigate to the Cycle Overview
231		Exercise 22: Maintain the Allocation Structure
245		Exercise 23: Maintain Indirect Activity Allocation (Optional)
251		Lesson: Using the Period Lock
253		Lesson: Using New General Ledger Accounting
271	Unit 5:	Planning
273		Lesson: Preparing Planning Configuration
279		Exercise 24: Maintain a Planning Layout
285		Lesson: Describing the Planning Process
289		Exercise 25: Plan with Statistical Key Figures
297		Exercise 26: Plan Activity Output and Prices
303		Exercise 27: Maintain Cost Element Planning
319		Exercise 28: Use the Automatic Planning Process
329		Lesson: Using the Planning Aids
331		Exercise 29: Copy Plan Data
335		Exercise 30: Use Revaluation
353	Unit 6:	Information System
354		Lesson: Using Report Painter Techniques
360		Lesson: Defining Data Sources
363		Exercise 31: Work with Extracts
373	Unit 7:	Introduction to Internal Orders
374		Lesson: Using Internal Orders
377		Lesson: Using Real and Statistical Orders
380		Lesson: Applying Different Business Scenarios for Internal Orders

389	Unit 8:	Master Data
390		Lesson: Maintaining Master Data
393		Exercise 32: Create an Order Type
399		Exercise 33: Maintain the Master Data of Internal Orders
404		Lesson: Using Status Management for Overhead Cost Orders
407		Exercise 34: Use Status Management for Overhead Cost Orders
412		Lesson: Using Collective Processing
415		Exercise 35: Use Order Groups
421		Exercise 36: Use Collective Processing
431	Unit 9:	Event-Based Postings
432		Lesson: Analyzing Event-Based Postings Within and Outside Management Accounting
437		Exercise 37: Create Postings in Management Accounting
445		Lesson: Working with Commitment Management
449		Exercise 38: Prepare Commitment Management
461	Unit 10:	Period-end Closing
462		Lesson: Evaluating Periodic Debit Postings
467		Exercise 39: Use the Overhead Costing Sheet
476		Lesson: Periodic Credit Postings with Settlement
481		Exercise 40: Set Up Settlement Parameters and Rules
487		Exercise 41: Evaluate an Allocation Structure
491		Lesson: Analyzing Source Structures and Profitability Analysis Transfer Structures
495		Lesson: Using Special Postings

TFIN20

Management Accounting (CO) I -
Part 2

Contents

xi	Course Overview
1	Unit 1: Product Cost Planning Methods
2	Lesson: Explaining Product Cost Planning
8	Lesson: Selecting the Right Product Cost Planning Method
19	Unit 2: Product Cost Planning Basics
20	Lesson: Defining Costing Items
25	Lesson: Understanding Product Cost Planning Basics
35	Unit 3: Reference and Simulation Costing
36	Lesson: Creating Base Planning Objects
39	Exercise 1: Create a Base Planning Object
43	Exercise 2: Modify a Base Planning Object
48	Lesson: Working Efficiently with Base Planning Objects
53	Exercise 3: Add a Reference Base Planning Object
61	Exercise 4: Process a Detailed Report for Base Planning Objects
69	Unit 4: Material Cost Estimates
71	Lesson: Integrating Material Master Records and Product Cost Planning
78	Lesson: Creating a Single-Level Cost Estimate Without Quantity Structures
80	Lesson: Creating a Multilevel Material Cost Estimate Without Quantity Structure
87	Exercise 5: Create a Multilevel Cost Estimate
91	Lesson: Maintaining Multilevel Cost Estimates
99	Exercise 6: Modify a Multilevel Cost Estimate
103	Lesson: Defining the Quantity Structure
119	Lesson: Determining the Quantity Structure
123	Exercise 7: Display a Cost Estimate
135	Lesson: Creating Material Cost Estimates with Quantity Structure
139	Exercise 8: Create a Material Cost Estimate with Quantity Structure
146	Lesson: Updating the Material Master
151	Exercise 9: Update the Standard Price in the Material Master
162	Lesson: Changing Prices in the Material Master

181	Unit 5:	Costing Run
182		Lesson: Using Costing Runs in Product Cost Planning
189		Exercise 10: Process a Costing Run
196		Lesson: Analyzing the Results of a Costing Run
201		Exercise 11: Review the Results of a Costing Run
217	Unit 6:	Product Cost Planning Configuration
219		Lesson: Explaining the Costing Variant
222		Lesson: Configuring the Costing Variant
229		Exercise 12: Display a Costing Variant
233		Lesson: Explaining the Cost Component Split
236		Lesson: Configuring the Cost Component Structure
239		Exercise 13: Display a Cost Component Structure
243		Lesson: Applying Overhead Costs to a Product
245		Exercise 14: Calculate Overhead
252		Lesson: Allocating Process Costs to a Product
267	Unit 7:	Sales-Order-Related Production Scenarios in Cost Object Controlling
268		Lesson: Managing Sales Orders
273		Lesson: Controlling Scenarios in Make-to-Order (MTO)
285	Unit 8:	Make-to-Order (MTO) Production with Controlling by Sales Order
286		Lesson: Using a Sales Order for Make-to-Order (MTO) Production
291		Exercise 15: Create a Sales Order for Make-to-Order Production
303		Exercise 16: Check the Individual Requirement Indicator
307		Lesson: Using Simultaneous Costing of Sales Orders for Make-to-Order (MTO) Production – Purchasing
311		Exercise 17: Purchase Material for Make-to-Order Production
318		Lesson: Using Simultaneous Costing of Sales Orders for Make-to-Order Production (MTO) – Production
323		Exercise 18: Produce and Deliver Material for Make-to-Order Production
339	Unit 9:	Configuration of Sales Orders for Make-to-Order (MTO) Production
340		Lesson: Configuring Sales Orders for Make-to-Order (MTO) Production 1
343		Lesson: Configuring Sales Orders for Make-to-Order (MTO) Production 2

353	Unit 10:	Period-End Closing for Make-to-Order (MTO) Production
355		Lesson: Calculating Overhead Costs for Sales Orders
359		Exercise 19: Calculate Overhead Costs for Sales Orders
362		Lesson: Calculating Work in Process (WIP) and Production Order Variances
367		Lesson: Carrying Out Results Analysis and Settling Sales Orders
371		Lesson: Performing Results Analysis for Sales Orders
383		Exercise 20: Perform Results Analysis for Sales Order
392		Lesson: Configuring Results Analysis
399		Lesson: Settling Sales Orders
407		Exercise 21: Settle the Sales Order
417	Unit 11:	Information System for Product Cost Controlling
418		Lesson: Product Cost Controlling Information System (CO-PC)
422		Lesson: Using Detailed Reports
426		Lesson: Using Object Lists
431		Exercise 22: Analyze Sales Orders with "Sales Order Selection"
435		Lesson: Performing Cost Object Summarization

TFIN22_1

Management Accounting II - Part 1

Contents

xi	Course Overview	
1	Unit 1:	Basics of New General Ledger Accounting
2		Lesson: Outlining Global Settings for New General Ledger Accounting
21		Exercise 1: Evaluate Global Settings for New General Ledger Accounting
27	Unit 2:	Profit Center Master Data
28		Lesson: Maintaining Profit Center Master Data
41		Exercise 2: Create Profit Center Master Data in the Standard Hierarchy and Profit Center Groups
47		Lesson: Assigning Profit Centers to SAP Objects
57		Exercise 3: Analyze Profit Center Assignments
67	Unit 3:	Actual Postings for Profit Center Accounting
69		Lesson: Explaining Profit Center Updates
73		Lesson: Demonstrating the Integration of Profit Centers and Asset Accounting
79		Exercise 4: Post Asset Transactions to Profit Center Accounting
86		Lesson: Outlining the Integration of Profit Centers with Materials Management
89		Exercise 5: Post a Material Movement to Profit Center Accounting
98		Lesson: Drafting the Integration of Cost Object Controlling with Profit Center Accounting
101		Exercise 6: Settle a Production Order and Verify the Resulting Postings in Profit Center Accounting
110		Lesson: Discussing the Integration of Sales and Distribution and Profit Center Accounting
113		Exercise 7: Process the Sales Order
121		Lesson: Processing Allocations in Profit Center Accounting
129		Exercise 8: Process a Profit Centers Allocation
141	Unit 4:	Profit Center Reorganization
142		Lesson: Demonstrating Profit Center Reorganization
152		Lesson: Processing a Profit Center Reorganization

183	Unit 5:	Profit Center Planning
184		Lesson: Preparing Planning Configuration
189		Exercise 9: Plan Profit Centers Manually
199		Lesson: Outlining Planning Integration
205		Exercise 10: Integrated Planning
215	Unit 6:	Information System
216		Lesson: Using Drilldown Reports Delivered in the Standard System
225		Exercise 11: Execute Standard Drilldown Reports
239	Unit 7:	Profitability Management
240		Lesson: Outlining Profitability Management Options
245		Lesson: Comparing Profitability Analysis and Profit Center Accounting
251		Exercise 12: Execute Reports of CO-PA
258		Lesson: Analyzing Profitability Management Objects
273	Unit 8:	Structures
274		Lesson: Introducing the Concept of an Operating Concern
283		Exercise 13: Evaluate the Basic Configuration of an Operating Concern
287		Lesson: Defining Data Structures
295		Exercise 14: Display Data Structures, Characteristics, and Value Fields
301		Exercise 15: Evaluate the Attributes, Characteristics, and Value Fields of an Operating Concern
309	Unit 9:	Master Data
310		Lesson: Describing the Concepts of Characteristic Derivation and Valuation
313		Lesson: Defining a Derivation Strategy
323		Exercise 16: Evaluate the Derivation Configuration
329		Exercise 17: Create a Line Item That Uses Derivation
333		Lesson: Evaluating with Product Costing
341		Exercise 18: Evaluate the Configuration of a Valuation Strategy
347		Exercise 19: Create a Line Item That Uses the Valuation Strategy
353		Lesson: Evaluating with a Costing Sheet
359		Exercise 20: Evaluate the Configuration of a Valuation Strategy Using a Costing Sheet
363		Exercise 21: Create a Line Item That Uses the Valuation Strategy
369		Exercise 22: Analyze Configuration Using the Customizing Monitor

377 Unit 10: Actual Data

379	Lesson: Defining the Flow of Actual Data
383	Lesson: Analyzing the Integration with Sales Order Management
395	Exercise 23: Execute the Sales Order Cycle
405	Exercise 24: Analyze the Value Flow
409	Lesson: Processing Cost Allocations
415	Exercise 25: Create and Execute an Assessment Cycle
425	Exercise 26: Allocate Costs to CO-PA Using Activity Types
434	Lesson: Processing Internal Orders
437	Exercise 27: Settle Internal Orders to CO-PA
446	Lesson: Creating Direct Postings from FI
449	Exercise 28: Create a Direct Posting from FI to CO-PA
457	Exercise 29: Post a Revaluation of a Material and View the CO-PA Documents
462	Lesson: Evaluating Other Actual Postings in CO-PA

481 Unit 11: Planning

482	Lesson: Evaluating the Profit Planning Process
486	Lesson: Outlining Planning Methods
509	Exercise 30: Create Manual Planning Functions
519	Exercise 31: Perform a Top-Down Distribution
525	Exercise 32: Outline Integrated Planning

531 Unit 12: Tools

532	Lesson: Executing Realignment
535	Exercise 33: Execute a Realignment

TFIN22

Management Accounting II - Part 2

Contents

ix Course Overview

1 Unit 1: Introduction to Report Painter and Report Writer

2	Lesson: Introducing the Report Painter and Report Writer
7	Lesson: Understanding the Report Writer Components
11	Exercise 1: Explain the Components of a Report
13	Exercise 2: Understand the Relationship Between the Report Components
19	Lesson: Configuring the Report Writer Components
21	Exercise 3: Create a Library

33 Unit 2: Creating Reports Using Report Painter

35	Lesson: Creating Basic Report Painter Reports
43	Exercise 4: Build a Report with a Total Row
50	Lesson: Using Report Groups
53	Exercise 5: Add a Report to a Report Group and Execute the Report
56	Lesson: Using Row Explosion
59	Exercise 6: Use the Explode Row Function in a Report
67	Lesson: Using Hierarchies in Reports
69	Exercise 7: Use Hierarchies: Sequence (Sort)
78	Lesson: Using Variables and Text in Report Painter Reports
83	Exercise 8: Use Variables in a Report Painter Report

95 Unit 3: Row and Column Models

96	Lesson: Using Row and Column Models
99	Exercise 9: Create Row and Column Models and Use them in a Report

109 Unit 4: Section and Horizontal Pages

110	Lesson: Using Horizontal Pages
113	Exercise 10: Define Horizontal Pages Within a Report
118	Lesson: Working with Sections
121	Exercise 11: Create a Report with Independent Sections
128	Lesson: Using Cells in Formula Columns
131	Exercise 12: Add a Column Formula to a Report that Includes a Cell Reference
137	Lesson: Using Cells in Calculations
141	Exercise 13: Create a Report with a Calculated Key Figure Section

155	Unit 5:	Report Formatting
156		Lesson: Formatting Reports Using Standard Layouts
159		Lesson: Formatting Sections
161		Exercise 14: Create a New Standard Layout and Attach it to a Report and Change Section Attributes
166		Lesson: Formatting Reports Using Format Groups
169		Exercise 15: Format Groups and Other Formatting Issues
183	Unit 6:	Information Systems
184		Lesson: Executing CO-PA Reports (Financial Analytics)
191		Exercise 16: Use the Reporting Functionality
200		Lesson: Creating Basic Reports and Outlining Report Components
207		Exercise 17: Create a Basic Report
211		Exercise 18: Create Report Components
219		Lesson: Creating Form Reports
227		Exercise 19: Create Form Reports
244		Lesson: Creating Line Item and Account-Based Reports
249		Exercise 20: Create a Line Item and Account-Based Report
257		Lesson: Integrating SAP BW in CO-PA
271	Unit 7:	Tools
272		Lesson: Analyzing Performance Tools
279		Exercise 21: Create Frozen Data
283		Exercise 22: Evaluate and Utilize a Summarization Level
